If you need further food support, please see our map of community food provision across Sheffield; visit [sheffood.org.uk](https://sheffood.org.uk) or scan the QR code here.

**SheffFood** is Sheffield's local food partnership, coordinating the Community Food Provision network. We bring together organisations offering free or low-cost food to share knowledge, address common challenges, celebrate successes, and work together to build a system where everyone, particularly those in crisis, can access nutritious, culturally appropriate food. We also empower organisations to combine food provision with social connection and support, such as debt and housing.
